1. Ask the participants to identify which items contain corn.
2. Reveal that all but one of the items contain corn and ask them to identify which item does not contain corn.
3. Reveal that the only item that does not contain corn is the pasta. It contains wheat flour, not corn flour.

Corn is an amazing, versatile and useful crop. Ask if they had ever considered how many of the products they use in their daily lives are made from one crop—corn!

Corn isn't just a food ingredient we eat, but a renewable resource used for many non-food products and for livestock feed.
